# Here is how Ionized Alkaline Water

increases

mental acuity

hydration

energy

performance

wellbeing

We are **75% water**

## Personal Sustainability Drinking ionized water

Regular drinking of Alkaline Ionized water is a highly effective way of assisting the body to meet the challenges of our lives. By reducing acidity and hydrating effectively you are better equipped to handle stress and hold an internal environment that enables all the body's systems to function optimally. The results are clear thinking, increased stability of emotions, greater vitality and stamina, and a body with a reduced likelihood of developing many of the adult onset illnesses.

## Testimonials

*"I have had the ionizer for 5 months and I cannot get over the feeling of well being. My joints no longer ache, I have much more energy sustaining me throughout the day and I have noticed marked improvements in my skin. It is one of the best investments I could have made."*

**Judy West**, Auckland

President of Assoc. of Beauty Therapists New Zealand

## Health Benefits Drinking ionized water daily

... affects us in positive ways. Years of experience in Korea, Japan, US and other countries have shown that...

- We feel energetic
- We increase performance
- We increase emotional stability
- We relax on a cellular level
- We cope better with stress
- We achieve a more natural bodyweight

## Acidity-Disease

Many adult onset illnesses arise as a result of over acidity in the body tissues. This includes arthritis, cancer, heart conditions, skin conditions, diabetes, cholesterol imbalance, chronic fatigue and overweight. From drinking ionized alkaline water the organs of elimination, kidneys, liver, lungs, and skin function more effectively. Our face, skin and hair all show it. We look well and we feel well.

## Other uses

Ionized water has a multitude of uses in the kitchen. The flavour of food made with high alkaline water is enhanced. Rice and pasta are succulent and more delicious while showing firm texture. Tea and coffee are richer in taste while using less. Oil emulsifies more easily, flour mixes more readily.

Fruit and vegetables increase their shelf life when soaked in high ionized water.

Acidic water Ph3 or 4 is used topically to treat skin conditions such as eczema and psoriasis, and is useful for treating burns, stings and itching.

It has merits as a general cleaner, also acting as a disinfectant. Pets love it too!

# WATER FOR LIFE

- ✦ **Alkalinity for maintenance of acid alkaline balance of the body**
- ✦ **Antioxidants for continuous detoxification, reducing free radicals**
- ✦ **Micro cluster, structured water enabling highly effective hydration**
- ✦ **Ionic electrically charged minerals for optimal cellular and organ functioning**
- ✦ **Effective removal of contaminants and chemicals with dual filter system**
- ✦ **Delicious soft and pure drinking water**

*"Powerful antioxidant source – More oxygen to our cells. As a medical doctor practising natural medicine for 20 years, I have emphasised the fundamental role of water in the detoxification therapies that I prescribe. The road back to perfect health (or keeping it) requires good hydration with water that is pure, alkaline, and easily assimilated by our cells. It is with much enthusiasm that I have discovered the impressive Ionza water ionizers... it measurably changes the redox potential, thus structuring water into a powerful antioxidant source. This reduces free radical damage as well as releasing more oxygen into our cells. ... I can honestly think of no better life investment for your health."*
