# of Plates	7 plates, cut, dipped & baked. Flat	7 plates cut, dipped & baked. Slotted/Mesh	7 plates dipped & baked. Slotted/Mesh	9 plates cut, dipped & baked. Slotted/Mesh	7 plates cut, dipped & baked. Slotted/Mesh	Slotted mesh plate technology increases surface area & distributes power evenly for better ionization.
Plate Size (approx.)	Total: 245 sq in.	Total: 220 sq in.	Total: 285 sq in.	Total: 315 sq in.	Total: 220 sq in.	
Watt consumption & Power Sys.	230 Watts. Transformer system. Transformer can be problematic & are known to overheat with extended use.	250 Watts. SMPS Power Control System.	280 Watts. SMPS Power Control System.	375 Watts. SMPS Power Control System.	300 Watts. SMPS Power Control System.	SMPS (switch-mode power supply) technology is the superior choice. Applies stable power across the plates, overcoming issues such as heat, noise and loss of power.

Filtration System	SINGLE (1) Choice of (a) regular filter: Granulated antibacterial activated charcoal, calcium sulfite, mechanical filter, removes things like chlorine, common contaminants and some sediment; or a (b) high grade filter: also removes lead.	DUAL (2) computerized 1st filter: .1 micron Antibiotic one-side filter, Zeomic, Noxious Odor Calcium, Active Carbon (with silver added), Sediment filter, 2nd filter: Antibiotic one-side filter, Granular Activated Carbon, Active Carbon, extra stages for heavy metals, arsenic, & lead.	DUAL (2) activated carbon filter (removes chlorine and lead and other chemicals), 2nd filter is ceramic remineralizer, removes bad minerals and adds back good minerals.	DUAL (2) .01 Micron activated carbon filter (removes chlorine and lead and other chemicals), 2nd filter is ceramic remineralizer, removes bad minerals and adds back good minerals. (this filter can also be used on the Tyent MMP-7070 series water ionizers.)	DUAL (2) computerized 1st filter: .1 micron Antibiotic one-side filter, Zeomic, Noxious Odor Calcium, Active Carbon (with silver added), Sediment filter, 2nd filter: Antibiotic one-side filter, Granular Activated Carbon, Active Carbon, extra stages for heavy metals, arsenic, & lead.	High quality, double filtration on KYK, Tyent & EOS -- double filtration gives you the purest water possible. KYK & EOS also uses advanced computer chip technology which automatically tells you when it is time to replace your filters.
Digital Filter Life Display	No	Yes - displays actual filter life remaining in liters for each filter.	No -shows an hour-glass type image of filter life remaining	No -shows an hour-glass type image of filter life remaining	Yes - displays actual filter life remaining in liters for each filter.	
Filter Cost & Life	Regular: \$90.00 High grade: \$120.00 Approx. 9-12 months.	\$120.00 / set of 2. #1 life: 6000 liters. #2 life: 6000 liters	\$99.00 / set of 2. Approx. 9-12 months.	\$119.00 / set of 2. Approx. 9-12 months.	\$134.98 / set of 2. #1 life: 4000 liters. #2 life: 8000 liters
